

Title: CharityHub: A Portal for Philanthropist and Charity Agencies with Collective Social Necessities

Authors: Hazel R. Escabarte, Trisha Adelaine G. Saromines, Abigail O. Valdon

EXECUTIVE SUMMARY

Non-Profit and Non-Government Organization's sole advocacy is to help and provide services to those in need in the society. Their mission is to ease the deprivation of individuals in the society. However, these organizations just vary on donations from people who are also concern to the health and wellbeing of others hence this implies that their ability to function will rely to the resources they receive. To address the hindrance in conveying relief to indigent individual, the researchers developed a web-based portal system to help

charities promote their charity and boost their donors and volunteers, and to provide philanthropists a website that gives them easy access to information regarding how, when, and where to donate. Applying the specific algorithms, tools, and methodology, the desired output was achieved, and various testing was conducted to ensure that the system is working properly. Through this, the researchers concluded that the system is effective and beneficial to the charities and philanthropist.
