

**Title:** Web based Integrated Management System with mobile Reservation for Hof Gorei

**Authors:** Marry Joy Detumal, CollenCuteBontuyan, Jennybev A. Pahang

## **ABSTRACT**

Web based Integrated Management System with mobile Reservation for Hof Gorie focuses on the infrastructure of the resort where the different department is connected in one system, the admin department, front desk and restobar. This system can provide centralized and accurate real time data. The customer can also reserve and order foods and drinks through mobile phone. Every reservation has one transaction code, the customer can view their reservation summary using the transaction code. The transaction code will send to their email address after they pay half of their reservation bill.
