

**Title:** Selected Streets of Davao City Driving Simulator with Integrated Gaming Steering Wheel, Pedals + Gear Level

**Authors:** ELLEN JANE E. ARRO, HENRI JAN D. BALBIRAN, SUNSHINE MAE A. BEFITEL, SHENNA E. SY

## **ABSTRACT**

Traffic laws are strictly being enforced in Davao City to keep peace and order in the city's roadways. Subsequently, this requires motorists to be responsible and more careful when driving. In line with this, the application aims to educate the users about cautious driving and the various traffic rules and regulations implemented in Davao City. The application is a localized driving simulator—the application environment is based on some of Davao City's busiest streets and makes use of the traffic rules and regulations enforced in those streets.
